

# **Rules for Registration Video**

## **Horses with at least one parent registered with NASHA:**

1. Only the horse(s) being registered should appear on the video.
2. Each horse must be clearly identified by name as it is shown.
3. The horse must exhibit an intermediate 4 beat gait for a sufficient length of time to clearly show that this is a natural traveling gait for the horse.
4. The intermediate gait must be of a speed faster than a flat walk.
5. Copies of registration papers from other registries should be provided if the horse is also registered with another registry. No hand written pedigrees will be accepted.
6. If one parent is not registered with NASHA leave the “NASHA registration number” space blank. Do not fill in a number from another registry. All forms must be printed or typed.

## **Horses with neither parent registered with NASHA:**

1. All the above requirements apply. The running walk, fox trot, classic fino or slick pace will not be accepted as the only gait. The horse must exhibit a true single-footing gait.
2. The video must show the confirmation of the horse from all 4 angles (front, back and both sides), with no saddle on.
